

SOHO

+++

SOHO

+++

+++

The SoHo Collection s
perfect for a laid-back
lifestyle. It features
an industrial and
somewhat “dark” soul
that is able to evolve
and blend with
various influences
until becoming
bourgeois.

+++

Distinguishing features

SoHo epitomises the pleasure of linearity and well-defined, airy volumes and offers not only plain doors, but also a bespoke **tray-type door** with soft edging that discreetly outlines the profile;
a **stand-on storage tray** in modular lengths, comprising supports and metal tray; **relief profile edging** for base units and tall units on which the side panels, bottoms and tops protrude to frame the doors;
a wall or floor to ceiling **bookcase**, perfect overlooking to the living room.

+++

Opening systems

1) Groove profile

This traditional groove profile is in matt, black or white painted extruded aluminium which can also be provided in any lacquered finish of your choice.

2) Handle

Doimo Cucine offers several metal handles with many finishes, including a brushed, chromed or burnished effect.

3) Push-pull

A practical, elegant, streamlined system based on a push piston located on top of the carcass behind the door.

1)

2)

3)

+++

Outstanding finishes

Chestnut. Five different shades for a species that highlights the natural characteristics of wood with its grooved flaming and sheen of age revealed by a host of nuances.

Wired glass. Epitomises the industrial soul of SoHo with inserts on the doors that create discontinuity. Rough but elegant, these simple elements are used sparingly.

IN GRES, DAI DECORI SMALTATI
IN VARIE TONALITÀ E DALLA
MANO MATERICA QUASI FOSSE
PIETRA LAVICA.**

The food washing and cooking unit is raised above the rest of the worktop and covered with enamel decorated stoneware tiles in different colours and the textured effect of lava stone.

El bloque de la zona de lavado y cocción es más alto respecto al resto de la encimera de trabajo y está revestido con azulejos de gres, con decoraciones esmaltadas en distintas tonalidades y con un toque matérico como si fuera piedra lávica.

Le bloc dans la zone de préparation culinaire est rehaussé par rapport au reste du plan de travail et revêtu avec des carreaux en grès, aux décors émaillés dans différentes tonalités et au toucher matérique, comme s'il s'agissait d'une pierre de lave.

Der Block aus Spül- und Kochbereich ist höher als der Rest der Arbeitsplatte und ist mit Fliesen aus Feinsteinzeug verkleidet, deren glasierte Dekore in verschiedenen Farbtönen sich fast wie Lavastein anfühlen.

+++

The central island gives an industrial air that warms and reassures at the same time due to its Peltrox[®] cover: perfect for contact with food.

Tall storage units

Doors that disappear into the side panels reveal a working space: microwave, coffee machine, pull-out work top, pantry and accessorised deep drawers.

The island is shaped and has an area with reduced depth to accommodate the SoHo floor to ceiling bookcase with black painted metal structure with Invecchiato chestnut and Peltrox® shelves.

Tile selection

refined tiles with a warm, vintage, textured look in several colours to cover worktops.

+++

Materials and finishes

The relaxing and refined style of SoHo is emphasised by its finishes: natural stained oak, chestnut and other wood species, lacquered colours, and the industrial air of steel, Fenix NTM[®] and wired glass.
